² OJ C 86, 7.3.2019, p. 137f.
Whereas:

(1) Article 176 of the Treaty on the Functioning of the European Union (‘TFEU’) provides that the European Regional Development Fund (‘ERDF’) is intended to help to redress the main regional imbalances in the Union. Under that Article and the second and third paragraphs of Article 174 of the TFEU, the ERDF is to contribute to reducing disparities between the levels of development of the various regions and to reducing the backwardness of the least favoured regions, among which particular attention is to be paid to certain categories of regions, among which cross-border rural areas, areas affected by an industrial transition, areas with a low population density, islands and mountain regions are explicitly listed. [Am. 1]

(2) Regulation (EU) [new CPR] of the European Parliament and of the Council⁴ sets out provisions common to the ERDF and certain other funds and Regulation (EU) [new ERDF] of the European Parliament and of the Council⁵ sets out provisions concerning the specific objectives and the scope of the ERDF support. It is now necessary to adopt specific provisions in relation to the European territorial cooperation goal (Interreg) where one or more Member States and their regions cooperate across borders with regard to effective programming including provisions on technical assistance, monitoring, evaluation, communication, eligibility, management and control, as well as financial management. [Am. 2]
In order to support the **cooperative and** harmonious development of the Union's territory at different levels **and to reduce existing disparities**, the ERDF should support cross-border cooperation, transnational cooperation, maritime cooperation, outermost regions’ cooperation and interregional cooperation under the European territorial cooperation goal (Interreg). *In the process, the principles of multi-level governance and partnership should be taken into account, and place-based approaches should be strengthened.* [Am. 3]

The different components of Interreg should contribute to the achievement of the Sustainable Development Goals (SDGs) as described in the 2030 Agenda for Sustainable Development adopted in September 2015. [Am. 4]
(4) The cross-border cooperation component should aim to tackle common challenges identified jointly in the border regions, and to exploit the untapped growth potential in border areas as evidenced in the Communication of the Commission 'Boosting Growth and Cohesion in EU Border Regions' (‘Border Regions Communication’). Consequently, the cross-border component should be limited to include cooperation on land borders and cross-border cooperation on both land or maritime borders should be integrated into the transnational, without prejudice to the new component for outermost regions cooperation. [Am. 5]

(5) The cross-border cooperation component should also involve cooperation between one or more Member States or their regions, and one or more countries or regions, or other territories outside the Union. Covering internal and external cross-border cooperation under this Regulation should result in a major simplification and streamlining of applicable provisions for the programme authorities in the Member States and for the partner authorities and beneficiaries outside the Union compared to the programming period 2014-2020. [Am. 6]

---

(6) The transnational cooperation and maritime cooperation component should aim to strengthen cooperation by means of actions conducive to integrated territorial development linked to the Union's cohesion policy priorities, and should also include maritime cross-border cooperation in full respect of subsidiarity. Transnational cooperation should cover larger transnational territories on the mainland of the Union, whereas maritime cooperation should cover and, where appropriate, territories around sea-basins and integrate that extend geographically beyond those covered by cross-border cooperation on maritime borders during the programming period 2014-2020. Maximum flexibility should be given to continue implementing previous maritime cross-border cooperation within a larger maritime cooperation framework, in particular by defining the territory covered, the specific objectives for such cooperation, the requirements for a project partnership and the setting-up of sub-programmes and specific steering committees programmes. [Am. 7]
Based on the experience with cross-border and transnational cooperation during the programming period 2014-2020 in outermost regions, where the combination of both components within a single programme per cooperation area has not brought about sufficient simplification for programme authorities and beneficiaries, a specific additional outermost regions’ component should be established in order to enable outermost regions to cooperate with their neighbouring third countries, overseas countries and territories (OCTs), or regional integration and cooperation organisations in the most effective and simple way that takes into account their individual characteristics. [Am. 8]
Based on the positive experience with the interregional cooperation programmes under Interreg, on the one hand, and the lack of such cooperation within programmes under the Investment for jobs and growth goal during the programming period 2014-2020, the on the other, interregional cooperation component should focus more specifically on boosting the effectiveness of cohesion policy. That component should therefore be limited to two programmes, one to enable all kind, through the exchange of experience, innovative approaches and capacity building the development of capacities for programmes under both goals and to promote (European territorial cooperation and Investment for growth and jobs) among cities and regions is an important component with a view to finding common solutions in the cohesion policy field and building lasting partnerships. Existing programmes and, in particular, promotion of project-based cooperation, including promoting European groupings of territorial cooperation (‘EGTCs’) set up or to be set up pursuant to Regulation (EC) No 1082/2006 of the European Parliament and of the Council and one to improve the analysis of development trends. Project-based cooperation throughout the Union, as well as macro-regional strategies should be integrated into the new component on interregional innovation investments and closely linked to the implementation of the Communication from the Commission ‘Strengthening Innovation in Europe’s Regions: Strategies for resilient, inclusive and sustainable growth’, in particular to support thematic smart specialisation platforms on fields such as energy, industrial modernisation or agrifood. Finally, integrated territorial development focusing on functional urban areas or urban areas should be concentrated within programmes under the Investment for jobs and growth goal and in one accompanying instrument, the ‘European Urban Initiative’. The two programmes under the interregional cooperation component should cover the whole Union and should also be open for the participation of third countries. therefore be continued.

[Am. 9]

---

The new initiative on interregional innovation investments should be based on smart specialisation, and used to support thematic smart specialisation platforms on fields such as energy, industrial modernisation, circular economy, social innovation, the environment or agrifood, and to help those involved in smart specialisation strategies to cluster together, in order to scale up innovation and bring innovative products, processes and ecosystems to the European market. The evidence suggests that a persistent systemic failure remains at the testing and validation stage of demonstration of new technologies (e.g. Key Enabling Technologies), especially when innovation is the result of the integration of complementary regional specialisations creating innovative value chains. That failure is particularly critical in the phase between piloting and full market uptake. In some strategic technology and industrial areas, SMEs cannot currently count on excellent and open, connected pan-European demonstration infrastructure. The programmes under the interregional cooperation initiative should cover the whole European Union and should also be open for the participation of OCTs, third countries, their regions, and regional integration and cooperation organisations, including the outermost neighbouring regions. Synergies between interregional innovation investments and other relevant EU programmes such as those under the European Structural and Investment Funds, Horizon 2020, Digital Market Europe and the single market programme should be encouraged, as they will amplify the impact of investments and provide better value for citizens. [Am. 10]
(9) *Common* objective criteria for designating eligible regions and areas should be established. To that end, the identification of eligible regions and areas at Union level should be based on the common system of classification of the regions established by Regulation (EC) No 1059/2003 of the European Parliament and of the Council⁹.

[Am. 11]

---

It is necessary to continue supporting or, as appropriate, to establish cooperation in all its dimensions with the Union's neighbouring third countries, as such cooperation is an important regional development policy tool and should benefit the regions of the Member States which border third countries. To that effect, the ERDF and the external financing instruments of the Union, IPA\textsuperscript{10}, NDICI\textsuperscript{11} and OCTP\textsuperscript{12}, should support programmes under cross-border cooperation, transnational cooperation and maritime cooperation, outermost regions’ cooperation and interregional cooperation. The support from the ERDF and from the external financing instruments of the Union should be based on reciprocity and proportionality. However, for IPA III CBC and NDICI CBC, the ERDF support should be complemented by at least equivalent amounts under IPA III CBC and NDICI CBC, subject to a maximum amount set out in the respective legal act, that is to say, up to 3\% of the financial envelope under IPA III and up to 4\% of the financial envelope of the Neighbourhood geographic programme under Article 4(2)(a) of the NDICI. [Am. 12]

\textbf{(10a)} Particular attention should be paid to regions which become new external borders of the Union to ensure the adequate continuity of ongoing cooperation programmes. [Am. 13]

\textsuperscript{10} Regulation (EU) XXX establishing the Instrument for Pre-accession Assistance (OJ L xx, p. y).
\textsuperscript{12} Council Decision (EU) XXX on the association of the Overseas Countries and Territories with the European Union including relations between the European Union on the one hand and Greenland and the Kingdom of Denmark on the other (OJ L xx, p. y).
(11) IPA III assistance should mainly focus on assisting the IPA beneficiaries to strengthen democratic institutions and the rule of law, reform the judiciary and public administration, respect fundamental rights and promote gender equality, tolerance, social inclusion and non-discrimination as well as regional and local development. IPA assistance should continue to support the efforts of the IPA beneficiaries to advance regional, macro-regional and cross-border cooperation as well as territorial development, including through the implementation of Union macro-regional strategies. In addition, IPA assistance should address security, migration and border management, ensuring access to international protection, sharing relevant information, enhancing border control and pursuing common efforts in the fight against irregular migration and migrant smuggling. [Am. 14]

(12) With regard to NDICI assistance, the Union should develop a special relationship with neighbouring countries, aiming to establish an area of prosperity and good neighbourliness, founded on the values of the Union and characterised by close and peaceful relations based on cooperation. This Regulation and the NDICI should therefore support the internal and external aspects of relevant macro-regional strategies. Those initiatives are strategically important and offer meaningful political frameworks for deepening relations with and among partner countries, based on the principles of mutual accountability, shared ownership and responsibility.
(12a) Developing synergies with Union external action and development programmes should also help to ensure maximum impact whilst fulfilling the principle of policy coherence for development as provided for by Article 208 of the Treaty on the Functioning of the European Union (TFEU). Achieving coherence across all Union policies is crucial for achieving the SDGs. [Am. 15]

(13) It is important to continue observing the role of the EEAS and the Commission in the preparation of the strategic programming and of Interreg programmes supported by the ERDF and the NDICI as established in Council decision 2010/427/EU.  

(14) In view of the specific situation of outmost regions of the Union, it is necessary to adopt measures concerning the improvement of conditions under which those regions may have access to structural funds. Consequently, certain provisions of this Regulation should be adapted to the specificities of the outermost regions in order to simplify and foster their cooperation with their neighbours third countries and OCTs, while taking into account the Communication from the Commission ‘A stronger and renewed strategic partnership with the EU's outermost regions’. [Am. 16]

---

This Regulation lays down the possibility of the OCTs to participate in Interreg programmes. The specificities and challenges of the OCTs should be taken into consideration in order to facilitate their effective access and participation. [Am. 17]

It is necessary to set out the resources allocated to each of the different components of Interreg, including each Member State's share of the global amounts for the cross-border cooperation, the transnational cooperation and maritime cooperation, the outermost regions’ cooperation and the interregional cooperation, the potential available to Member States concerning flexibility between those components. Compared to the programming period 2014-2020, the share for cross-border cooperation should be reduced, while the share for transnational cooperation and maritime cooperation aimed to boost investments in more jobs and growth and joint investments with other regions should be increased because of the integration of maritime cooperation, and a new outermost, however, also be determined by the regions’ cooperation component common characteristics and ambitions and not necessarily by borders, therefore sufficient additional funds for the new initiative on interregional innovation investments should be created made available to respond to the global market condition. [Am. 18]
(16) For the most efficient use of the support from the ERDF and the external financing instruments of the Union, a mechanism should be set up to organise the return of such support in cases where external cooperation programmes cannot be adopted or have to be discontinued, including with third countries which do not receive support from any financing instrument of the Union. That mechanism should seek to achieve optimal functioning of the programmes and the maximum possible coordination between those instruments.

(17) The ERDF should contribute, under Interreg, to the specific objectives under the cohesion policy objectives. However, the list of the specific objectives under the different thematic objectives should be adapted to the specific needs of Interreg, by providing for additional specific objectives under the policy objective 'a more social Europe by implementing the European Pillar of Social Rights' in order to allow for ESF-type interventions.
Within the context of the unique and specific circumstances on the island of Ireland, and with a view to supporting North-South cooperation under the Good Friday Agreement, a new 'PEACE PLUS' cross-border programme should continue and build on the work of previous programmes between the border counties of Ireland and Northern Ireland. Taking into account its practical importance, it is necessary to ensure that, where the programme is acting in support of peace and reconciliation, the ERDF should also contribute to promoting social, economic and regional stability and cooperation in the regions concerned, in particular through actions to promote cohesion between communities. Given the specificities of the programme it should be managed in an integrated manner with the United Kingdom contribution being integrated into the programme as external assigned revenue. Furthermore, certain rules on the selection of operations in this Regulation should not apply to that programme in relation to operations in support of peace and reconciliation. [Am. 19]
This Regulation should add two Interreg-specific objectives, one to support an Interreg-specific objective strengthening institutional capacity, enhancing legal and administrative cooperation, in particular where linked to implementation of the Border Regions Communication, intensify cooperation between citizens and institutions and the development and coordination of macro-regional and sea-basin strategies, and one to address specific external cooperation issues such as safety, security, border crossing management and migration.

The major part of the Union support should be concentrated on a limited number of policy objectives in order to maximise the impact of Interreg. **Synergies and complementarities between the components of INTERREG should be strengthened.** [Am. 20]

Provisions on the preparation, approval and amendment of Interreg programmes as well as on territorial development, on the selection of operations, on monitoring and evaluation, on the programme authorities, on audit of operations, and on transparency and communication should be adapted to the specificities of Interreg programmes compared to the provisions set out in Regulation (EU) [new CPR]. **These specific provisions should be kept simple and clear in order to avoid gold-plating and additional administrative burdens for Member States and beneficiaries.** [Am. 21]
The provisions on the criteria for operations to be considered as genuinely joint and cooperative, on the partnership within an Interreg operation and on the obligations of the lead partner as set out during the programme period 2014-2020 should on be continued. However, Interreg partners should cooperate in all four dimensions (development, and implementation, as well as staffing and or financing), or both, and, under outermost regions’ cooperation, in three out of four, as it should be simpler to combine support from the ERDF and external financing instruments from the Union both on the level of programmes and operations. [Am. 22]

Under cross-border cooperation programmes, people-to-people (P2P) and small-scale projects are an important and successful instrument for eliminating border and cross border obstacles, fostering contacts between people locally and, in so doing, bringing border regions and their citizens closer together. P2P projects and small-scale projects are carried out in many areas such as, inter alia, culture, sport, tourism, general education and vocational training, the economy, science, environmental protection and ecology, healthcare, transport and small-scale infrastructure projects, administrative cooperation and public-relations work. As also set forth in the opinion of the Committee of the Regions ‘People-to-people and small-scale projects in cross-border cooperation programmes’15, P2P projects and small-scale projects have high European added value and make a considerable contribution towards realising the overall objective of cross-border cooperation programmes. [Am. 23]

---

It is necessary to clarify the rules governing small project funds which have been implemented since Interreg has existed, but P2P projects and small-scale projects have been supported via small-project funds or similar instruments that have never been covered by specific provisions, making it necessary to clarify the rules governing those funds. In order to maintain the added value and advantages of P2P, as also set out in the Opinion of the Committee of the Regions ‘People-to-people and small-scale projects in cross-border cooperation programmes’\(^\text{16}\), such small project funds play an important role in building up trust between citizens and institutions, offer great European added value and contribute considerably to the overall objective of cross-border cooperation programmes by overcoming border obstacles and integrating border areas and their citizens. In order to, also with regard to local and regional development, and to simplify the management of the financing of small projects by the final recipients, who are often not used to applying for Union funds, the use of simplified cost options and of lump sums should be made obligatory below a certain threshold. [Am. 24]

---

Due to the involvement of more than one Member State, and the resulting higher administrative costs, including for regional points of contact (or ‘antennae’), which are important points of contact for those proposing and implementing projects, and therefore function as a direct line to the joint secretariats or the relevant authorities, but in particular in respect of controls and translation, the ceiling for technical assistance expenditure should be higher than that under the Investment for jobs and growth goal. In order to offset the higher administrative costs, Member States should be encouraged to reduce the administrative burden with regard to the implementation of joint projects wherever possible. In addition, Interreg programmes with limited Union support or external cross-border cooperation programmes should receive a certain minimum amount for technical assistance to ensure sufficient funding for effective technical assistance activities. [Am. 25]
Pursuant to paragraph 22 and 23 of the Inter-institutional agreement for Better Law-Making of 13 April 2016, there is a need to evaluate the Funds on the basis of information collected through specific monitoring requirements, while avoiding overregulation and administrative burdens, in particular on Member States. These requirements, where appropriate, can include measurable indicators, as a basis for evaluating the effects of the Funds on the ground.

In connection with reducing administrative burden, the Commission, Member States and regions should cooperate closely in order to be able to make use of the enhanced proportionate arrangements for the management and control system for an Interreg programme that are referred to in Article 77 of Regulation (EU) .../[new CPR]. [Am. 26]

Based on experience during the programming period 2014-2020, the system introducing a clear hierarchy of rules on eligibility of expenditure should be continued while maintaining the principle of rules on eligibility of expenditure to be established at Union level or for Interreg programme as a whole to avoid any possible contradictions or inconsistencies between different Regulations and between Regulations and national rules. Additional rules adopted by one Member State which would only apply to the beneficiaries in that Member State should be limited to the strict minimum. In particular, provisions of the Commission Delegated Regulation (EU) No 481/2014\(^{17}\) adopted for the programming period 2014-2020 should be integrated into this Regulation.

Member States should be encouraged to assign, where appropriate, delegate the functions of the managing authority to an a new or, where applicable, an existing EGTC or to make such a grouping, like other cross-border legal bodies, responsible for managing a sub-programme, an integrated territorial investment or one or more small project funds, or to act as sole partner. Member States should enable regional and local authorities and other public bodies from different Member States to set up such cooperation groupings with a legal personality and should involve local and regional authorities in their functioning. [Am. 27]

In order to continue the payment chain established for the programming period 2014-2020, i.e. from the Commission to the lead partner via the certifying authority, that payment chain should be continued under the accounting function. The Union support should be paid to the lead partner, unless this would result in double fees for conversion into euro and back into another currency or vice versa between the lead partner and the other partners. If not otherwise specified, the lead partner should ensure that the other partners receive the total amount of the contribution from the respective Union fund in full and within the timeframe agreed by all partners and following the same procedure applied in respect of the lead partner. [Am. 28]
Pursuant to Article [63(9)] of Regulation (EU, Euratom) [FR-Omnibus] sector-specific rules are to take account of the needs of European Territorial Cooperation (Interreg) programmes as regards, in particular the audit function. The provisions on the annual audit opinion, the annual control report and the audits of operations should therefore be simplified and adapted to those programmes involving more than one Member States State. [Am. 29]

A clear chain of financial liability in respect of recovery for irregularities should be established from sole or other partners via the lead partner and the managing authority to the Commission. Provision should be made for liability of Member States, third countries, partner countries or Overseas Countries and Territories (OCTs), where obtaining recovery from the sole or other or lead partner is not successful, meaning that the Member State reimburses the managing authority. Consequently, under Interreg programmes there is no scope for irrecoverable amounts on the level of beneficiaries. It is necessary, however, necessary to clarify the rules, should a Member State, third country, partner country or OCT not reimburse the managing authority. The obligations of the lead partner for recovery should also be clarified. In particular, the procedures related to recoveries should be established and agreed by the monitoring committee. However, the managing authority should not be allowed to oblige the lead partner to launch a judicial procedure in a different country. [Am. 30]
(30a) It is appropriate to encourage financial discipline. At the same time, arrangements for decommitment of budgetary commitments should take into account the complexity of Interreg programmes and their implementation. [Am. 31]

(31) In order to apply a mostly common set of rules both in the participating Member States and third countries, partner countries or OCTs, this Regulation should also apply to the participation of third countries, partner countries or OCTs, unless specific rules are set out in a specific Chapter of this Regulation. Interreg programme authorities may be mirrored by comparable authorities in third countries, partner countries or OCTs. The starting point for the eligibility of expenditure should be linked to the signature of the financing agreement by the relevant third country, partner country or OCT. Procurement for beneficiaries in the third country, partner country or OCT should follow the rules for external procurement under Regulation (EU, Euratom) [new FR-Omnibus] of the European Parliament and the Council18. The procedures for the conclusion of financing agreements with each of the third countries, partner countries or OCTs as well as of the agreements between the managing authority and each third country, partner country or OCT with regard to the support from an external financing instrument of the Union or in the case of transfer of an additional contribution from a third country, partner country or OCT to the Interreg programme other than national co-financing should be set out.

18 [Reference]
Although Interreg programmes with the participation of third countries, partner countries or OCTs should be implemented under shared management, outermost regions’ cooperation may be implemented under indirect management. Specific rules should be set out on how to implement those programmes as a whole or partially under indirect management. [Am. 32]

Based on the experience during the programming period 2014-2020 with large infrastructure projects within cross-border cooperation programmes under the European Neighbourhood Instrument, the procedures should be simplified. However, the Commission should retain certain rights concerning the selection of such projects.
(34) Implementing powers should be conferred on the Commission to adopt and amend the lists of Interreg programmes, the list of the global amount from Union support for each Interreg programme and to adopt decisions approving Interreg programmes and amendments thereof. These implementing powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers\(^\text{19}\). Although these acts are of a general nature, the advisory procedure should be used given that they only implement the provisions in a technical way.

(35) In order to ensure uniform conditions for the adoption or amendment of Interreg programmes, implementing powers should be conferred on the Commission. However, where applicable, external cross-border cooperation programmes should respect, where applicable, Committee procedures established under Regulations (EU) [IPA III] and [NDICI] with regard to the first approval decision of those programmes. [Am. 33]

In order to supplement or amend certain non-essential elements of this Regulation, the power to adopt acts in accordance with Article 290 of the TFEU should be delegated to the Commission to amend the Annex on the template for Interreg programmes. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.
(36a) The promotion of European Territorial Cooperation (ETC) is a major priority of Union cohesion policy. Support for SMEs for costs incurred in ETC projects is already block-exempted under the Commission Regulation (EU) No 651/2014\(^{20}\) (General block exemption Regulation (GBER)). Special provisions in relation to regional aid for investments by undertakings of all sizes are also included in the Guidelines on regional State aid for 2014-2020\(^{21}\) and in the regional aid section of the GBER. In the light of experience gained, aid for European Territorial Cooperation projects should only have limited effects on competition and trade between Member States, and thus the Commission should be able to declare that such aid is compatible with the internal market and that financing provided in support of ETC projects is able to be block-exempted. [Am. 34]

(37) Since the objective of this Regulation, namely to foster cooperation between Member States and between Member States and third countries, partner countries or OCTs cannot be sufficiently achieved by the Member States but can rather, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective,

HAVE ADOPTED THIS REGULATION:

---

CHAPTER I
General provisions

SECTION I

SUBJECT MATTER, SCOPE AND INTERREG COMPONENTS

Article 1
Subject matter and scope

1. This Regulation lays down rules for the European territorial cooperation goal (Interreg) with a view to fostering cooperation between Member States and their regions inside the Union and between Member States, their regions and adjacent third countries, partner countries, other territories or overseas countries and territories ('OCTs'), or regional integration and cooperation organisations, or group of third countries forming part of a regional organisation, respectively. [Am. 35]
2. This Regulation also lays down the provisions necessary to ensure effective programming including on technical assistance, monitoring, evaluation, communication, eligibility, management and control, as well as financial management of programmes under the European territorial cooperation goal ('Interreg programmes') supported by the European Regional Development Fund ('ERDF').

3. With regard to support from the 'Instrument for Pre-Accession Assistance' ('IPA III'), the 'Neighbourhood, Development and International Cooperation Instrument' ('NDICI') and the funding for all the OCTs for the period 2021 to 2027 established as a Programme by Council Decision (EU) XXX ('OCTP') to Interreg programmes (the three instruments together: 'the external financing instruments of the Union'), this Regulation defines additional specific objectives as well as the integration of those funds into Interreg programmes, the criteria for third countries, partner countries and OCTs and their regions to be eligible and certain specific implementation rules.
4. With regard to support from the ERDF and the external financing instruments of the Union (jointly referred to as ‘the Interreg funds’) to Interreg programmes, this Regulation defines the Interreg-specific objectives as well as the organisation, the criteria for Member States, third countries, partner countries and OCTs and their regions to be eligible, the financial resources, and the criteria for their allocation.

5. Regulation (EU) [new CPR] and Regulation (EU) [new ERDF] shall apply to Interreg programmes, except where specifically provided for otherwise under those Regulations and this Regulation or where provisions of Regulation (EU) [new CPR] can only apply to the Investment for jobs and growth goal.
Article 2
Definitions

1. For the purpose of this Regulation, the definitions in Article [2] of Regulation (EU) [new CPR] shall apply. The following definitions shall also apply:

(1) 'IPA beneficiary' means a country or territory listed in Annex I to Regulation (EU) [IPA III];

(2) 'third country' means a country which is not a Member State of the Union and does not receive support from the Interreg funds;

(3) 'partner country' means an IPA beneficiary or a country or territory covered by the 'Neighbourhood geographic area’ listed in Annex I to Regulation (EU) [NDICI] and the Russian Federation, and which receives support from the external financing instruments of the Union;

(4) 'cross-border legal body' means a legal body including a euroregion, established under the laws of one of the participating countries in an Interreg programme provided that it is set up by territorial authorities or other bodies from at least two participating countries. [Am. 36]
'regional integration and cooperation organisation’ means a group of Member States or regions in the same geographical area that aim to cooperate closely on issues of common interest. [Am. 37]

2. For the purpose of this Regulation, where provisions of Regulation (EU) [new CPR] refer to a 'Member State', this shall be construed as meaning 'the Member State hosting the managing authority' and where provisions refer to 'Each Member State' or 'Member States', this shall be construed as meaning 'the Member States and, where applicable, third countries, partner countries and OCTs participating in a given Interreg programme'.

For the purpose of this Regulation, where provisions of Regulation (EU) [new CPR] refer to 'the Funds' as listed in [point (a) of Article 1(1)] of that Regulation or to the 'ERDF', this shall be construed as also covering the respective external financing instrument of the Union.
Article 3

Components of the European territorial cooperation goal (Interreg)

Under the European territorial cooperation goal (Interreg), the ERDF and, where applicable, external financing instruments of the Union shall support the following components:

(1) cross-border cooperation between adjacent regions to promote integrated and harmonious regional development (component 1): [Am. 38]

(a) internal cross-border cooperation between adjacent land or maritime border regions of two or more Member States or between adjacent land or maritime border regions of at least one Member State and one or more third countries listed in Article 4(3); or [Am. 39]

(b) external cross-border cooperation, between adjacent land or maritime border regions of at least one Member State and of one or more of the following: [Am. 40]

(i) IPA beneficiaries; or

(ii) partner countries supported by NDICI; or

Without prejudice to the eligibility rules laid down in Articles [57 to 62] of Regulation (EU) [new CPR], Articles [4 and 6] of Regulation (EU) [new ERDF] or in this Chapter, including in acts adopted thereunder, the participating Member States and, where applicable, third countries, partner countries and OCTs shall, by a joint decision in the monitoring committee, only establish additional rules on eligibility of expenditure for the Interreg programme on categories of expenditure not covered by those provisions. Those additional rules shall cover the programme area as a whole. However, where an Interreg programme selects operations based on calls for proposals, those additional rules shall be adopted before the first call for proposals is published. In all other cases, those additional rules shall be adopted before the first operations are selected.

For matters not covered by the eligibility rules laid down in Articles [57 to 62] of Regulation (EU) [new CPR], Articles [4 and 6] of Regulation (EU) [new ERDF] and this Chapter, including in acts adopted thereunder or in rules established in accordance with paragraph 4, the national rules of the Member State and, where applicable, of the third countries, partner countries and OCTs in which the expenditure is incurred shall apply.

4. [new CPR], the Commission shall reimburse as interim payments 100 % of the amounts included in the payment application which result from applying the cofinancing rate of the programme to the total eligible expenditure or to the public contribution, as appropriate. [Am. 173]

1b. Where the managing authority does not carry out verification under point (a) of Article 68(1) of Regulation (EU) .../... [Am. 174]

However, a participating Member State may specify when the audit authority is to be accompanied by an auditor from that participating Member State.
2. The audit authority of an Interreg programme shall be responsible for carrying out system audits and audits on operations in order to provide independent assurance to the Commission that management and control systems function effectively and that expenditure included in the accounts submitted to the Commission is legal and regular.

3. Where an Interreg programme is included in the population from which the Commission selects a common sample under Article 48(1), the audit authority shall carry out audits of operations selected by the Commission in order to provide independent assurance to the Commission that management and control systems function effectively.

4. Audit work shall be carried out in accordance with internationally accepted audit standards.
5. The audit authority shall draw up and submit to the Commission each year by 15 February following the end of the accounting year an annual audit opinion in accordance with Article [63(7)] of Regulation [FR-Omnibus] using the template set out in Annex [XVI] to Regulation (EU) [new CPR] and based on all audit work carried out, covering each of the following components:

(a) the completeness, veracity and accuracy of the accounts;

(b) the legality and regularity of the expenditure included in the accounts submitted to the Commission;

(c) the management and control system of the Interreg programme.

Where the Interreg programme is included in the population from which the Commission selects a sample pursuant to Article 48(1), the annual audit opinion shall only cover the components referred to in points (a) and (c) of the first subparagraph.

The deadline of 15 February may exceptionally be extended by the Commission to 1 March, upon communication by the Member State hosting the managing authority concerned.
6. The audit authority shall draw up and submit to the Commission each year by 15 February following the end of the accounting year an annual control report in accordance with [point (b) of Article 63(5)] of Regulation [FR-Omnibus] using the template set out in Annex [XVII] of Regulation (EU) [new CPR] and, supporting the audit opinion provided for in paragraph 5 of this Article and setting out a summary of the findings, including an analysis of the nature and extent of any errors and deficiencies in the systems as well as the proposed and implemented corrective actions and the resulting total error rate and residual error rate for the expenditure entered in the accounts submitted to the Commission.

7. Where the Interreg programme is included in the population from which the Commission selects a sample under Article 48(1), the audit authority shall draw up the annual control report referred to in paragraph 6 of this Article and fulfilling the requirements of [point (b) of Article 63(5)] of Regulation (EU, Euratom) [FR-Omnibus] using the template set out in Annex [XVII] to Regulation (EU) [new CPR] and supporting the audit opinion provided for in paragraph 5 of this Article.
That report shall set out a summary of the findings, including an analysis of the nature and extent of any errors and deficiencies in the systems as well as the proposed and implemented corrective actions, the results of the audits of operations carried out by the audit authority in relation to the common sample referred to in Article 48(1) and the financial corrections applied by the Interreg programme authorities for any individual irregularities detected by the audit authority for these operations.

8. The audit authority shall transmit system audit reports to the Commission as soon as the required contradictory procedure with the relevant auditees is concluded.

9. The Commission and the audit authority shall meet on a regular basis and at least once a year, unless otherwise agreed, to examine the audit strategy, the annual control report and the audit opinion, to coordinate their audit plans and methods and to exchange views on issues relating to the improvement of management and control systems.
Article 48
Audit of operations

1. The Commission shall select a common sample of operations (or other sampling units) using a statistical sampling method for the audits of operations to be carried out by the audit authorities for the Interreg programmes receiving support from the ERDF or an external financing instrument of the Union in respect of each accounting year.

The common sample shall be representative for all the Interreg programmes constituting the population.

For the purposes of selecting the common sample, the Commission may stratify groups of Interreg programmes according to their specific risks.

2. The programme authorities shall provide the information necessary for the selection of a common sample to the Commission by 1 September following the end of each accounting year at the latest.

That information shall be submitted in a standardised electronic format, shall be complete and shall reconcile with the expenditure declared to the Commission for the reference accounting year.
3. Without prejudice to the requirement to carry out an audit referred to in Article 47(2), the audit authorities for Interreg programmes covered by the common sample shall not carry out additional audits of operations under those programmes, unless requested by the Commission in accordance with paragraph 8 of this Article or in cases for which an audit authority has identified specific risks.

4. The Commission shall inform the audit authorities of the Interreg programmes concerned of the common sample selected in time to allow those authorities to carry out the audits of operations, in general, by 1 October following the end of each accounting year, at the latest.

5. The audit authorities concerned shall submit information on the results of these audits as well as on any financial correction taken in relation to individual irregularities detected at the latest in the annual control reports to be submitted to the Commission pursuant to Article 47(6) and (7).

6. Following its assessment of the results of audits of operations selected pursuant to paragraph 1, the Commission shall calculate a global extrapolated error rate with regard to the Interreg programmes included in the population from which the common sample was selected, for the purposes of its own assurance process.
7. Where the global extrapolated error rate referred to in paragraph 6 is above 2% 3.5% of the total expenditure declared for the Interreg programmes included in the population from which the common sample was selected, the Commission shall calculate a global residual error rate, taking account of financial corrections applied by the respective Interreg programme authorities for individual irregularities detected by the audits of operations selected pursuant to paragraph 1. [Am. 176]

8. Where the global residual error rate referred to in paragraph 7 is above 2% 3.5% of the expenditure declared for the Interreg programmes included in the population from which the common sample was selected, the Commission shall determine whether it is necessary to request the audit authority of a specific Interreg programme or a group of Interreg programmes most affected to carry out additional audit work in order to further evaluate the error rate and assess the required corrective measures for the Interreg programmes affected by the irregularities detected. [Am. 177]
9. Based on the assessment of the results of the additional audit work requested pursuant to paragraph 8, the Commission may request additional financial corrections to be applied on the Interreg programmes affected by the irregularities detected. In such cases, the Interreg programme authorities shall carry out the required financial corrections in accordance with Article [97] of Regulation (EU) [new CPR].

10. Each audit authority of an Interreg programme for which the information referred to in paragraph 2 is missing or incomplete or has not been submitted by the deadline laid down in the first subparagraph of paragraph 2 shall carry out a separate sampling exercise for the respective Interreg programme in accordance with Article [73] of Regulation (EU) [new CPR].
CHAPTER VII

Financial management

Article 49

Payments and pre-financing

1. The ERDF support and, where applicable, the support from external financing instruments of the Union to each Interreg programme shall be paid, in accordance with Article 46(2), into a single account with no national subaccounts.

2. The Commission shall pay a pre-financing based on the total support from each Interreg fund, as set out in the decision approving each Interreg programme under Article 18, subject to available funds, in yearly instalments as follows and before 1 July of the years 2022 to 2026, or, in the year of the approving decision, no later than 60 days after that decision is adopted:

(a) 2021: 1% 3 %; [Am. 178]
(b) 2022: 1% 2,25 %; [Am. 179]
(c) 2023: 1% 2,25 %; [Am. 180]
(d) 2024: 1% 2,25 %; [Am. 181]
(e) 2025: 1% 2,25 %; [Am. 182]
(f) 2026: 1% 2,25 %. [Am. 183]
3. Where external cross-border Interreg programmes are supported by the ERDF and IPA III CBC or NDICI CBC, the pre-financing for all funds supporting such an Interreg programme shall be made in accordance with Regulation (EU) [IPA III] or [NDICI] or of any act adopted thereunder. [Am. 184]

The pre-financing amount may be paid in two instalments, where necessary, according to budgetary needs.

The total amount paid as pre-financing shall be reimbursed to the Commission if no payment application under the cross-border Interreg programme is sent within 24 months of the date on which the Commission pays the first instalment of the pre-financing amount. Such reimbursement shall constitute internal assigned revenue and shall not reduce the support from the ERDF, IPA III CBC or NDICI CBC to the programme. [Am. 185]

Article 50
Recoveries

1. The managing authority shall ensure that any amount paid as a result of an irregularity is recovered from the lead or sole partner. Partners shall repay to the lead partner any amounts unduly paid.
2. Where the lead partner does not succeed in securing repayment from other partners or where the managing authority does not succeed in securing repayment from the lead or sole partner, the Member State, third country, partner country or OCT on whose territory the partner concerned is located or, in the case of an EGTC, is registered shall reimburse the managing authority any amounts unduly paid to that partner. The managing authority shall be responsible for reimbursing the amounts concerned to the general budget of the Union, in accordance with the apportionment of liabilities among the participating Member States, third countries, partner countries or OCTs laid down in the Interreg programme.

3. Once the Member State, third country, partner country or OCT has reimbursed the managing authority any amounts unduly paid to a partner, it may continue or start a recovery procedure against that partner under its national law. In the event of successful recovery, the Member State, third country, partner country or OCT may use those amounts for the national co-financing of the Interreg programme concerned. The Member State, third country, partner country or OCT shall not have any reporting obligations towards the programme authorities, the monitoring committee or the Commission with regard to such national recoveries.
4. Where a Member State, third country, partner country or OCT has not reimbursed the managing authority any amounts unduly paid to a partner pursuant to paragraph 3, those amounts shall be subject to a recovery order issued by the AOD which shall be executed, where possible, by offsetting against amounts due to the Member State, third country, partner country or OCT under subsequent payments to the same Interreg programme or, in the case of a third country, partner country or an OCT, under subsequent payments to programmes under the respective external financing instruments of the Union. Such recovery shall not constitute a financial correction and shall not reduce the support from the ERDF or any external financing instrument of the Union to the respective Interreg programme. The amount recovered shall constitute assigned revenue in accordance with Article [177(3)] of Regulation (EU, Euratom) [FR-Omnibus].
CHAPTER VIII

3a. Joint calls for proposals mobilising funding from bilateral or multi-country NDICI programmes and ETC programmes may be launched if the respective managing authorities agree to do so. The content of the call shall specify its geographical scope, and its expected contribution to the objectives of the respective programmes. Managing authorities shall decide whether NDICI or ETC rules are applicable to the call. They may decide to appoint a lead managing authority responsible for the tasks of management and control related to the call. [Am. 195]

Article 54
Eligibility

1. However, the managing authority may not provide the document provided for in Article 22(6) before such dates.

Article 55
Large infrastructure projects

1. Interreg programmes under this section may support 'large infrastructure projects' meaning operations comprising a set of works, activities or services intended to fulfil an indivisible function of a precise nature pursuing clearly identified objectives of common interest for the purposes of implementing investments delivering a cross-border impact and benefits and where a budget share of at least EUR 2 500 000 is allocated to the acquisition of infrastructure.
2. Each beneficiary implementing a large infrastructure project or a part thereof shall apply the applicable public procurement rules.

3. Where the selection of one or more large infrastructure projects is on the agenda of a monitoring committee or, where applicable, steering committee meeting, the managing authority shall transmit a concept note for each such project to the Commission at the latest two months before the date of the meeting. The concept note shall be a maximum of three five pages and shall indicate the name, the location, the budget, the lead partner and the partners as well as the main objectives and deliverables thereof, as well as including a credible business plan which demonstrates that the project or projects’ continuation is secure even without the provision of Interreg funds. If the concept note concerning one or more large infrastructure projects is not transmitted to the Commission by that deadline, the Commission may request that the chair of the monitoring committee or steering committee remove the projects concerned from the agenda of the meeting. [Am. 196]
Article 56

Procurement

1. Where the implementation of an operation requires procurement of service, supply or works contracts by a beneficiary, the following rules shall apply:

(a) where the beneficiary is a contracting authority or a contracting entity within the meaning of the Union law applicable to public procurement procedures, it shall apply national laws, regulations and administrative provisions adopted in connection with Union laws;

(b) where the beneficiary is a public authority of a partner country under IPA III or NDICI whose co-financing is transferred to the Managing Authority, it may apply national laws, regulations and administrative provisions, provided that the financing agreement allows it and that the contract is awarded to the tender offering best value for money, or as appropriate, to the tender offering the lowest price, while avoiding any conflict of interests.

2. For the award of goods, works or services in all cases other than those referred to in paragraph 1, the procurement procedures under Articles [178] and [179] of Regulation (EU, Euratom) [FR-Omnibus] and Chapter 3 of Annex 1 (Points 36 to 41) to that Regulation shall apply.
Article 57
Financial management

The Commission decisions approving Interreg programmes also supported by an external financing instrument of the Union shall meet the requirements necessary to constitute financing decisions in terms of Article [110(2)] of Regulation (EU, Euratom) [FR-Omnibus].

Article 58
Conclusion of Financing Agreements under shared management

1. In order to implement an Interreg programme in a third country, partner country or OCT, in accordance with Article [112(4)] of Regulation (EU, Euratom) [FR-Omnibus], a financing agreement shall be concluded between the Commission representing the Union and each participating third country, partner country or OCT represented in accordance with its national legal framework.

2. Any financing agreement shall be concluded at the latest on 31 December of the year following the year when the first budget commitment was made and shall be considered concluded on the date when the last party has signed it.
Any financing agreement shall enter into force either on the date

(a) when the last party has signed it; or

(b) when the third or partner country or OCT has completed the procedure required for ratification under its national legal framework and informed the Commission.

3. Where an Interreg programme involves more than one third country, partner country or OCT, at least one financing agreement shall be signed by both parties before that date. The other third countries, partner countries or OCTs may sign their respective financing agreements at the latest on 30 June of the second year following the year when the first budget commitment was made.

4. The Member State hosting the managing authority of the relevant Interreg programme either

(a) may also sign the financing agreement; or

(b) shall sign, on the same date, an implementing agreement with each third country, partner country or OCT participating in that Interreg programme setting out the mutual rights and obligations with regard to its implementation and financial management.
When transmitting the signed copy of the financing agreement or a copy of the implementing agreement to the Commission, the Member State hosting the managing authority shall also send, as a separate document, a list of the planned large infrastructure projects as defined in Article 55, indicating the prospective name, location, budget and lead partner thereof.

5. An implementing agreement signed pursuant to point (b) of paragraph 4 shall at least cover the following elements:

(a) detailed arrangements for payments;

(b) financial management;

(c) record keeping;

(d) reporting obligations;

(e) verifications, controls and audit;

(f) irregularities and recoveries.
6. Where the Member State hosting the managing authority of the Interreg programme decides to sign the financing agreement pursuant to point (a) of paragraph 4, that financing agreement shall be considered a tool to implement the Union budget in accordance with the Financial Regulation and not an international agreement as referred to in Articles 216 to 219 of the TFEU.

Article 59
Third country, partner country or OCT contribution other than co-financing

1. Where a third country, partner country or OCT transfers to the Managing Authority a financial contribution to the Interreg programme other than its co-financing of the Union support to the Interreg programme, the rules concerning that financial contribution shall be contained in the following document:

(a) where the Member State signs the financing agreement pursuant to point (a) of Article 58(4), in a separate implementing agreement signed either between the Member State hosting the managing authority and the third country, partner country or OCT or directly between the managing authority and the competent authority in the third country, partner country or OCT;
(b) where the Member State signs an implementing agreement pursuant to point (b) of Article 58(4), in one of the following:

(i) a distinct part of that implementing agreement; or

(ii) an additional implementing agreement signed between the same parties referred to point (a).

For the purposes of point (b)(i) of the first subparagraph, sections of the implementing agreement may, where applicable, cover both the transferred financial contribution and the Union support to the Interreg programme.

2. An implementing agreement under paragraph 1 shall at least contain the elements concerning the third country's, partner country's or OCT's co-financing listed in Article 58(5).

In addition, it shall set out both of the following:

(a) the amount of the additional financial contribution;

(b) the intended use and conditions for its use, including conditions for applications for that additional contribution.
3. With regard to the PEACE PLUS programme, the financial contribution to Union activities from the United Kingdom in the form of external assigned revenue as referred to in [point (e) of Article 21(2)] of Regulation (EU, Euratom) [FR-Omnibus] shall make part of the budget appropriations for Heading 2 'Cohesion and Values', sub-ceiling 'Economic, social and territorial cohesion'.

That contribution shall be subject to a specific financing agreement with the United Kingdom in accordance with Article 58. The Commission and the United Kingdom as well as Ireland shall be parties to this specific financing agreement.

It shall be signed before the beginning of the implementation of the programme thus allowing the Special EU Programmes Body to apply all the Union legislation for the implementation of the programme.
CHAPTER IX
Specific provisions for direct or indirect management

Article 60
Outermost regions' cooperation

1. Where, after consulting stakeholders, part or all of a component 3 Interreg programme is implemented under indirect management pursuant to point (b) or (c) respectively of Article 53(3), implementation tasks shall be entrusted to one of the bodies listed in point [(c) of the first subparagraph of Article 62(1)] of Regulation (EU, Euratom) [FR-Omnibus], in particular to such a body located in the participating Member State, including the managing authority of the Interreg programme concerned. [Am. 197]

2. In accordance with [point (c) of Article 154(6)] of Regulation (EU, Euratom) [FR-Omnibus], the Commission may decide not to require an ex-ante assessment as referred to in paragraphs 3 and 4 of that Article when the budget implementation tasks referred to in [point (c) of the first subparagraph of Article 62(1)] of Regulation (EU, Euratom) [FR-Omnibus] are entrusted to a managing authority of an outermost regions' Interreg programme identified pursuant to Article 37(1) of this Regulation and in accordance with Article [65] of Regulation (EU) [new CPR].
3. Where the budget implementation tasks referred to in [point (c) of the first subparagraph of Article 62(1)] of Regulation [FR-Omnibus] are entrusted to a Member State organisation, Article [157] of Regulation (EU, Euratom) [FR-Omnibus] shall apply.

4. Where a programme or action co-financed by one or more external financing instrument is implemented by a third country, a partner country, an OCT or any of the other bodies listed to in [point (c) of the first subparagraph of Article 62(1)] of Regulation (EU, Euratom) [FR-Omnibus] or referred to in Regulation (EU) [NDICI] or Council Decision [OCT Decision] or both, the relevant rules of these instruments shall apply, in particular Chapters I, III and V of Title II of Regulation (EU) [NDICI].

Article 61
Interregional innovation investments

At the initiative of the Commission, the ERDF may support interregional innovation investments, as set out in point 5 of Article 3, bringing together researchers, businesses, civil society and public administrations involved in smart specialisation strategies established at national or regional levels. [Am. 198]
Article 61a
Exemption from reporting requirements under Article 108(3) TFEU

The Commission may declare that aid in favour of projects supported by EU European territorial cooperation are compatible with the internal market and are not subject to the notification requirements of Article 108(3) TFEU. [Am. 199]

Several complementary indicators (for instance one output indicator and one result indicator) are possible for one type of operation. In these cases, fields 1.3 to 1.11 should be filled in for each indicator.
C: Calculation of the standard scale of unit costs, lump sums or flat rates

1. Source of data used to calculate the standard scale of unit costs, lump sums or flat rates (who produced, collected and recorded the data; where the data are stored; cut-off dates; validation, etc.):

2. Please specify why the proposed method and calculation is relevant to the type of operation:

3. Please specify how the calculations were made, in particular including any assumptions made in terms of quality or quantities. Where relevant, statistical evidence and benchmarks should be used and attached to this annex in a format that is usable by the Commission.

4. Please explain how you have ensured that only eligible expenditure was included in the calculation of the standard scale of unit cost, lump sum or flat rate;

5. Assessment of the audit authority(ies) of the calculation methodology and amounts and the arrangements to ensure the verification, quality, collection and storage of data:
